ELO INU

WHITE PAPER

DISCLAIMER

This introductory paper was originally published in 2021 prior to the project's launch. It's worth noting that ELO INU, like all community-driven, open-source software projects, has evolved since its initial publication.

ELO INU is a completely decentralized and community-driven project free of ownership, shareholders, promoters, directors and other centralised entities enforcing governance. ELO INU smart contracts are open-source, security audited, permanent, and entirely unchangable.

Serving strictly as a utility token in jurisdiction, ELO INU should not be considered a security or regulated token of any kind, and isn't categorised as a fiat/asset backed stablecoin.

Holders and traders of ELO INU claim to have read the correct technical, regulatory and legal advice prior to viewing this Whitepaper or the ELO INU website, thereafter accepting the inherent risk in accessing or using any form of blockchain or crypto technology, token, platform, and interface and further acknowledges with full disclaimer the full potential for loss and damages suffered.

INTRODUCTION

ELO INU is redesigning the way decentralized finance is structured, focused on reshaping and evolving how DeFi concepts such as participation rewards, NFTs, and decentralized exchanges work while delivering the most robust ecosystem ever designed for DeFi's much-needed advancements.

ELO INU is leveraging the power of Defi concepts and, through our ecosystem, we offer huge tools for people around the world to take control of their financial future. ELO Ecosystem makes DeFi safer, more accessible and more rewarding with a circular ecosystem that aligns incentives for holders, rookies, traders, and developers.

ELO INU integrates:

$ELO TOKEN

The meme token that facilitates and promotes widespread usage through a specific rewards initiative linked to user transactions through decentralized wallets.

ELO INU SWAP

Using decentralized exchanges with certain functionality allows holders to trade directly without the need for centralized governance.

ELO INU

TOKEN PRESALE

Token	Network	Ticker	Net Supply
ELO INU	Binance Smart Chain	ELO INU	1 Quintillion

Hard Cap	Soft Cap	Personal Max	Personal Min
1200 BNB	600 BNB	5 BNB	0.01 BNB

ELO INU's projected net supply currently stands at 1 Quintillion, being prioritised as a decentralized usage rewards mechanism. The more $ELO INU is actively in use, the more rewards are generated.

ELO INU offers investors a platform where they can increase their crypto earnings simply for holding $ELO INU. The project uses a financial model and intelligent coding to deliver token reflection earnings to every holder. Moreover, the project integrates a fully self-sustaining model designed to increase the user base and build a strong community.
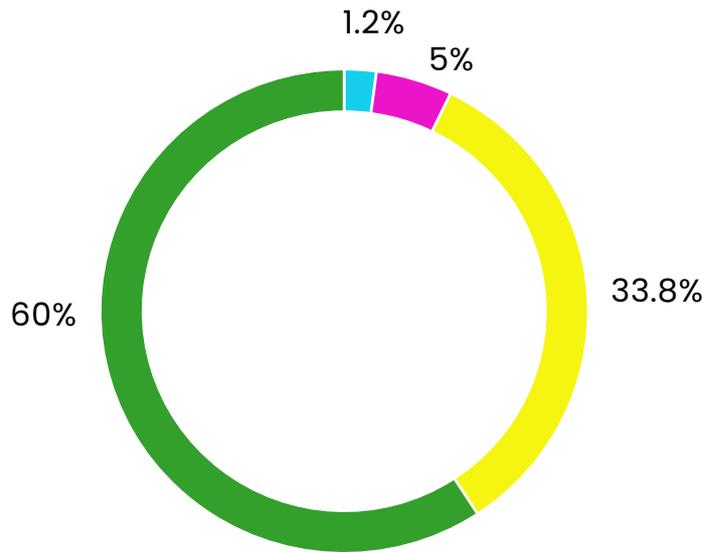

ELO INU maintains a robust fees model that charges multiple types of fees on all buy and sell trades. The tax from transactions is used to reward holders and fund marketing/development, ensuring the meme token takes flight.

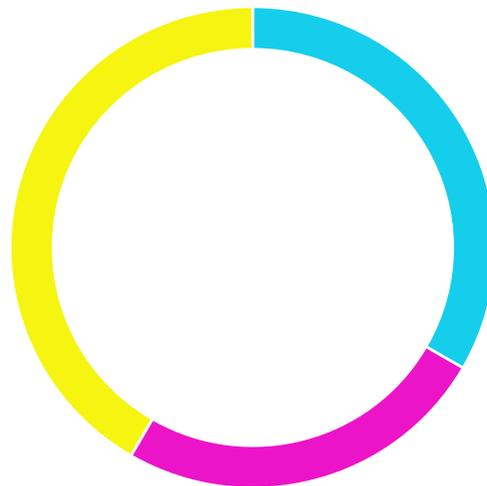

ELO INU

ROADMAP

Q4 2021

- White Paper
- Website Launch
- Social Accounts
- Token Audit
- Token Sale
- PancakeSwap Listing
- Coinmarketcap & Coingeko Listing
- Ambassadors Application
- Huge Marketing Push
- Community Growth
- Ambassadors Announcement
- Further Exchange Listings

Q3 2022

- ELO INU NFT Marketplace
- ETH Bridge

Q2 2022

- New Partnerships
- Web Re-design
-Community Events

Q1 2022

- The ELO INU Swap
- Swap Contract Audit
- ELO INU Swap Public

AUDIT

InterFi was commissioned by ELO INU to perform a complete audit of the smart contracts and token.

The link to the contract is given below

https://bscscan.com/address/0x35207068e057a01861A654463c01B04cc111E760#code

The purpose of the audit was to achieve the following

● Ensure that the smart contract functions as intended

● Identify the potential security issue with the smart contract.
